

PRE-PAYMENT RESEARCH PURPOSE AGREEMENT

Research Purpose Agreement

Confirmation of scientific use of research reagents. This agreement is completed before LabBeast accepts payment or releases research peptide orders.

Critical ordering control

LabBeast should not collect payment, release invoices, or dispatch products until this signed agreement is complete, reviewed, and tied to the customer record.

Research-only scope

Products are supplied for lawful in-vitro laboratory research only. They are not medicines, foods, cosmetics, supplements, diagnostics, or clinical products.

No human or animal use

No ingestion, injection, inhalation, topical use, administration, treatment, diagnosis, prevention, veterinary use, or personal-use experimentation is permitted.

01 Preamble and parties

This Research Purpose Agreement is entered into by LabBeast and the buyer identified in the customer completion section. The agreement applies to all research reagents, peptides, blends, supplies, documentation, samples, replacement items, and related order support supplied by LabBeast.

The buyer acknowledges that the agreement is a required qualification step before payment capture and order release. LabBeast may reject, pause, or cancel any order if the agreement is incomplete, inconsistent with research-use-only terms, or indicates prohibited use.

02 Buyer qualification

The buyer represents that they are at least 18 years old and are a qualified researcher, laboratory, institution, company, or authorized procurement representative with a lawful research purpose.

The buyer confirms they have the facilities, training, internal procedures, safety controls, and authority required for the purchase, possession, storage, handling, disposal, and use of research-grade reagents.

03 Exclusive purpose restriction

Products may be used only for lawful in-vitro laboratory research, analytical reference work, compound characterization, method development, or other controlled non-clinical research activities.

Products must not be used, marketed, transferred, compounded, prepared, represented, or discussed as products for human use, animal use, diagnosis, treatment, cure, mitigation, prevention, wellness, performance, food, drug, supplement, cosmetic, household, or clinical purposes.

TERMS AND BUYER DUTIES

Research-use controls

These clauses keep the buyer agreement connected to LabBeast operations: documentation, support boundaries, jurisdictional responsibility, risk allocation, and record keeping.

04 Documentation and support boundaries

Certificates of analysis, third-party reports, product specifications, catalog numbers, batch references, and shipping records are provided for research traceability only. They do not represent that any product is safe, effective, sterile, approved, or suitable for any prohibited use.

LabBeast support is limited to order status, logistics, product identity, catalog numbers, COA status, storage labels, and documentation access. LabBeast will not provide dosing, administration, reconstitution for personal use, treatment, effects, side effects, animal-use, or medical guidance.

05 Buyer responsibilities

The buyer is solely responsible for verifying legality of purchase, import, possession, handling, storage, use, and disposal in the buyer's jurisdiction and destination country.

The buyer must maintain appropriate laboratory SOPs, PPE, containment, waste handling, security, staff training, record keeping, and internal approvals. Products may not be resold, redistributed, transferred, or supplied for any use inconsistent with this agreement.

06 Disclaimer, assumption of risk, and indemnification

Research reagents may pose hazards if improperly handled. The buyer assumes all risk related to purchase, import, possession, handling, storage, use, transfer, misuse, and disposal of products.

To the maximum extent permitted by applicable law, the buyer agrees to defend, indemnify, and hold harmless LabBeast from claims, losses, damages, penalties, liabilities, costs, and expenses arising from the buyer's breach, misuse, prohibited use, unlawful import, unsafe handling, or failure to comply with applicable requirements.

07 Privacy, records, and audit trail

LabBeast may store the signed agreement, customer identity fields, order reference, review status, timestamps, communication records, and agreement version for compliance, support, and dispute-resolution purposes.

The buyer must notify LabBeast if customer details, research purpose, destination, authorization, or legal ability to receive products changes before an order is released.

08 Term, termination, and final provisions

This agreement applies from the date signed and remains applicable to the buyer's LabBeast account and orders unless replaced by a later signed version. LabBeast may terminate service, refuse orders, or close an account for suspected breach or prohibited-use communications.

If any provision is unenforceable, the remaining provisions remain in effect. Governing law, venue, and final production terms should be reviewed by qualified legal counsel before live launch.

CUSTOMER COMPLETION SECTION

Buyer declaration and signature

Complete every field. The signed version must be reviewed and retained before payment is accepted or the order is released.

All fields are required

Incomplete customer details, unchecked buyer confirmation, missing signature, missing printed name, or missing date should hold the order before payment capture.
